

RISK MANAGEMENT POLICY

Denny Lodge Parish Council is committed to identifying and managing risks, using the following procedures, and to ensuring that risks are maintained at an acceptable level. Any action that is felt necessary will be taken by Denny Lodge Parish Council.

The Clerk (who is also the responsible financial officer) will review risks on a regular basis, including any newly identified risks, and will report to Council. The review will include identification of any unacceptable levels of risk.

The Local Councils Governance and Accountability Guidance – a Practitioners Guide 2010 edition makes the following observations regarding risk management.

The focus of good risk management is to identify what can go wrong and take steps to avoid this or successfully manage the consequences. Risk management is not just about financial management: it is about setting objectives and achieving them in order to deliver high quality public services.

It goes on to make the point that Members are ultimately responsible for risk management because risk threatens the achievement of policy objectives. Members should, therefore –

- a. take steps to identify key risks facing the Council
- b. evaluate the potential consequences to the Council if an event identified as a risk takes place
- c. decide upon appropriate measures to avoid, reduce or control the risk or its consequences.
- d. record any conclusions or decisions reached.

To identify the risks facing a council, the Guidance recommends beginning by grouping the three main types of decisions that have to be taken into the following areas:

- i. Areas where there may be scope to use insurance to help manage risk
- ii. Areas where there may be scope to work with others to help manage risk
- iii Areas where there may be need to self-managed risk.
